SOLUTION

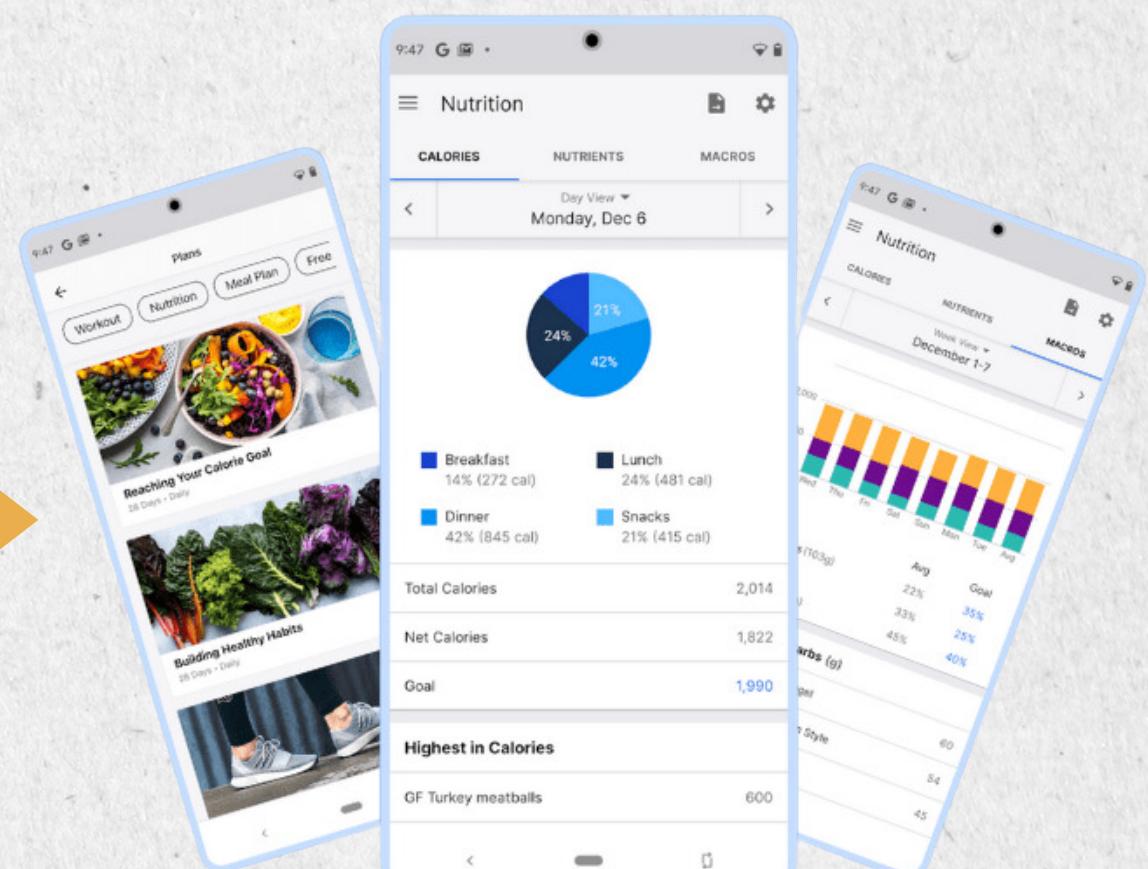

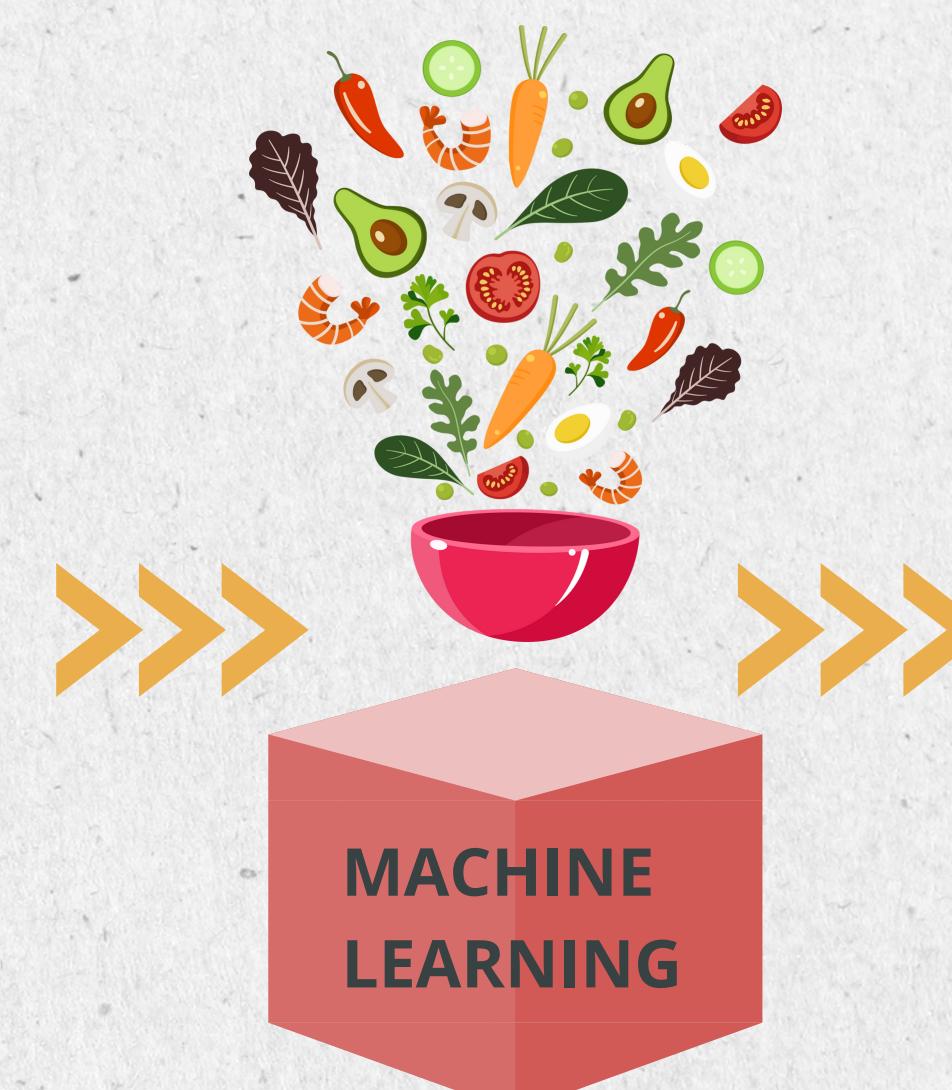

The image displays two rounded rectangular mobile application screens side-by-side. The top screen shows a circular progress bar for 'Calories' with a green segment indicating '1,247 remaining' and a smaller grey segment indicating '466 consumed'. The time '10:09' is at the top. The bottom screen shows a similar interface for 'Nutrients' with sections for 'Carbohydrates' (50 g remaining), 'Fat' (12 g over goal), and 'Protein' (114 g remaining). Both screens have a dark background.
